

DASIL

Dermatology, Aesthetics, and Surgery
International League

10TH WORLD CONGRESS Mexico City 2022

**NOVEMBER
2-5
2022**

PRELIMINARY PROGRAM

INNOVATIVE DERMATOLOGY, SURGERY & AESTHETICS

The international faculty of DASIL 2022, featuring world leading authorities in dermatologic surgery and aesthetic procedures, will serve to educate many international physicians from around the world. The DASIL2 022 curriculum will provide an educational curriculum featuring educational symposia, workshops, and live patient demonstrations in the areas of dermatologic surgery, laser medicine, aesthetic procedures and surgery as well as selected topics in medical dermatology. DASIL2 022 will also continue in the tradition of creating networking opportunities among physicians and industry via the numerous social events that take place during the meeting.

We welcome our colleagues in industry to join for what promises to be the international educational event of 2022. The proximity of the DASIL 2022 Mexico City meeting site to the U.S., Canada and S. America as well as the ease of travel from Europe and Asia will undoubtedly encourage participation on a global scale. We Ask you to review our Exhibitor Prospectus which offers opportunities at every level of engagement. We look forward to seeing you at DASIL 2022 in Mexico City next November. It promises to be an educational event to remember.

DASIL PRESIDENT

George Martin, MD
DASIL PRESIDENT

Tatjana Pavicic, MD
DASIL PRESIDENT-ELECT

Hector Leal Silva, MD, PhD
DASIL TREASURER

Michael H. Gold, MD
DEPUTY CHAIR

We once again welcome your participation in our DASIL meeting – and make no mistake, DASIL is a very unique and special society. We are a true non-profit society and all the funds that we raise with your help go into our teaching programs and academic initiatives. Our members are not paid by the society and all the time spent on DASIL is done because we all believe in the mission. That means teaching and mentoring our colleagues from all over the world.

The program for Mexico City will include all the aesthetic and surgical applications that helps define DASIL. We also will add in some of the important medical dermatology of the day. So we will have medical dermatology, cosmetic dermatology, and something for everyone in what has truly become one of the world's most important congresses. We welcome you and the world to DASIL.

DASIL is known for its innovations and exciting meetings where new technologies and advances are taught by masters of their craft. We always have an amazing collection of Teaching Courses, again taught by the best of the best. We will continue the tradition in Mexico City with courses on Liposuction and LipoSculpture, Hair Transplantation, Scars and their Management, Microneedling, Lasers and Energy Based Devices, Injectable Fillers and Neurotoxins, Surgical Techniques – Basic and Advanced. Plans are underway to make these courses the best they have ever been. We will also have several days of learning planned with tracks available for participants to learn more about our surgical specialties as well as a wonderful medical track, with global thought-leaders to provide the most important information on all pertinent aspects of medical dermatology. The program will be thorough and we encourage participation from all, so please reach out to us with any ideas or thoughts you may have as we always strive to have innovative and complete scientific sessions.

We hope everyone stays safe and healthy. 2022 will hopefully be a whole different story and we can't wait to meet you in Mexico City and make DASIL rise and shine again.

Hector Leal Silva, MD
